## Instructions:

**Step 1.** Fill in your name or business, address, city, county and zip. Next, fill in the billing address if different from the test address. Provide contact numbers where a Priority Inspections representative can respond and confirm your order.

**Step 2.** Indicate the number and type of backflow units you need to have tested or repaired. FAX to (561) 282-6455.

**Step 3.** A Priority Inspection representative will promptly return your call or fax to set up an appointment time for free estimates, inspections, testing and / or routine maintenance.

**Step 4.** On the day of testing or repair, the Priority Inspections representative will contact you or notify the occupant of a temporary interruption in water service. Testing usually takes no more than 15 minutes, but repairs may take longer. All attempts will be made to perform tests and repairs quickly and at a convenient time for you and your occupants / customers.
